Introduction

In January 2012, D&E Safety Service (Pty) Ltd was established to meet the growing demand of Health and Safety Management systems and the recruiting, placing and managing of Health and Safety personnel on site within the KZN Region.

D&E Safety Service has embraced the spirit of the new government to create an empowered society.

D&E Safety Service was established by Clarence Fynn in 2012 that has been in the Safety Industry for more than 12 years as a Safety Office/Manager on various Projects.

D&E Safety Services offers the following:

Develop, implement and maintain SHE Management Systems.

Facilitate the Legal Appointment structures in a business.

Placement and management of competent SHE Officers;

Drafting HSE Policies and Procedures.

Compiling of client specific legal Safety Files.

Accident/ Incident Investigations.

Hazard Identification and Risk Assessment process.

Audits / Inspections and Action Plans & Close out of deviations.

Conducting Training and Awareness for all employees.

Emergency Management Planning.

SHE Meetings

Mission & Vision

D&E Safety Services aims to be the leading Health, Safety and Environmental Management Systems Company by ensuring the highest standards in quality and service delivery. We aim to provide internal health, safety & environmental training to all HSE personnel, supervision and management who have not been equipped with site specific experience and in depth safety knowledge which will make them superior at performing their jobs.

Objectives

- Working together with our clients to cohesively combine our knowledge and strengths;
- Providing competent personnel through an intense scrutiny during our recruitment process;
- Responding to any concerns internally and externally by continually improving ourselves;
- Ensuring our clients compete satisfaction within our projects

Placement of Staff

Where clients only require staff placement services, we shall provide the following competent personnel

SHEQ Managers/ Officers

Traffic Safety Officers

Flagmen

Training Facilitators

SHE Representatives and Fire Watchers.

Semi-skilled artisan personnel and General Labour
